UNO SPAZIO BIANCHERIA DEDICATO.

“Ambiente di servizio” non deve significare “poco curato”. Partendo da questo presupposto è stato progettato il nuovo spazio Lavanderia di Loetra. Lavatrici ed asciugatrici trovano una adeguata collocazione in colonne ad-hoc o in strutture a giorno di forte spessore (40 mm.). Le basi portalavabo con specifiche tavolette dedicate alla pulizia della biancheria, le basi sospese ed a terra, i pensili e le colonne completano il programma di servizio lavanderia garantendo soluzioni orientate alla massima personalizzazione. Le numerose finiture melaminiche e laccate opache disponibili permettono poi ampia libertà espressiva ed ottimizzazione delle scelte in relazione ai gusti individuali.

A DEDICATED LINEN SPACE.

“Service environment” should not mean “careless”. Loetra’s Laundry room start from this concept. Washing machines and dryers find a right placement in ad-hoc columns or in thick open structures (40 mm.). The washbasin units with specific tablets dedicated to linen cleaning, the suspended and floor units, wall units and columns complete the laundry service program ensuring solutions oriented to maximum customization. The numerous melamine and matt lacquered finishes available, allow your freedom expression and satisfy all tastes and needs.
