DIVANI

LETTO

## Collezione Relaxtime

La dinamicità che caratterizza l'epoca contemporanea investe a pieno titolo anche gli spazi abitativi, richiedendo loro una fondamentale attitudine alla versatilità e alla polifunzionalità. Il divano del giorno, luogo di riposo comune e di condivisione della quotidiana vita familiare, può trasformarsi allora in comodo giaciglio per la notte, senza mutare in modo incisivo l'assetto generale dell'arredamento domestico. Divani caratterizzati da singolare identità estetica e strutturale racchiudono così letti ergonomici, dotati di utili soluzioni salvaspazio, per garantire la più intelligente adesione della casa alle esigenze della modernità.

## Relaxtime Collection

The dynamism that characterizes the contemporary epoch is also fully visible in the living areas, requiring a fundamental attitude to both versatility and multi-functionality. The day bed, place of rest and cornerstone of everyday family life, can be transformed into a comfortable bed for the night when required, without disturbing the general home dynamics. Sofas characterized by a unique identity and structure, house ergonomic beds equipped with useful space-saving storage solutions, to ensure an intelligent addition to the home's modern demands.

## Meccanismo | Mechanism

### Pratico, Semplice, Salvaspazio.

I meccanismi sono certificati CATAS e permettono la veloce trasformazione del divano in un comodo letto, mediante un agevole rotazione dello schienale e successivo svolgimento della rete senza la necessità di rimuovere i cuscini della seduta.

La rete è realizzata in acciaio ad alta resistenza con un telaio portante già predisposto con baionette per il rapido montaggio di braccioli e schienale. Il piano letto ortopedico è solido, stabile e confortevole, particolarmente adatto all'uso frequente e quotidiano.

### Practical, Simple, Space-Saving.

The mechanisms are certified by CATAS and allow the fast transformation of the sofa into a comfortable bed, by an easy rotation of the back and subsequent unwinding of the metal base without having to remove any cushions from the seat.

Metal base is made of high-strength steel with a supporting frame already prepared with bayonets for the quick assembly of armrests and backrest. The orthopedic bed is solid, stable and comfortable, particularly suitable for frequent and daily use.

Linea materasso 20 - Modelli: **Barbados, Naxos, Santorini** | Mattress 20 line - Models: Barbados, Naxos, Santorini.
